Admissions for Hospitalization of severe cases of Hemorrhagic Dengue Fever: **1081**

Deliveries: **1657 !!**

Surgical operations: **648**

Figures and Facts from January 1st to October 31st 2012

Kantha Bopha in Phnom Penh and Siem Reap Angkor:

Admissions for Hospitalization of severely sick children: **114 569**

Admissions for Hospitalization of severe cases of Dengue: **26 199**

Although the Hospitals are still overcrowded we could go on with **heart surgery in Siem Reap Angkor and Neurosurgery (brain tumors) in Phnom Penh.**

The Epidemic of the Hemorrhagic Dengue Fever is still going on. We are only counting the severe cases being hospitalized: **26 199 !! These are more than 2007!** The not severe cases are followed up and treated in the outpatient stations. They are not counted. Only 30 % of the families have got Abate in order to treat the water stored around the houses where the mosquitoes are breeding.

We are grateful for all donations. If small or big. Most families of our patients are poor. They could not pay. That is why all treatment for all is free.

Dr. Beat Richner, Founder and Head of the Kantha Bopha Hospitals, 1.11.2012
